

# Caloundra Sweep Fans

## PRODUCT INFORMATION

Confidential Property of Schneider Electric

Life Is On

**CLIPSAL**<sup>™</sup>  
by Schneider Electric

# Caloundra Value Propositions

## +30% airflow

Our fans push 30% more air than timber blade equivalents, actually keeping homeowners cool.

## Still and Silent

Our specially designed motor is core to the performance of the fan.

## Coastal Rated

With its all plastic exterior, our fans are more than capable for use outdoors in high-humidity or coastal applications, unlike most rust-prone fans on the market.

## Quick-install blades

Our blades slot straight into the screw cavities, unlike many difficult to locate competitors.

## Slimline LED

Our fan with light departs from the dated dome shaped light fitting to a sleek, modern LED design.

## 3-Year in-house warranty

Clipsal is the only brand to currently offer a full, 3-year in-house warranty for complete peace of mind to the installer. If something goes wrong, we will sort it out.

# Caloundra (no light) C4HS1300-WE

Available  
20<sup>th</sup> Oct'18

## Specifications

- **Fully UV-stabilised ABS plastic**
- 4 blades
- 1300mm (52")
