Life Is On

**CLIPSAL**  
by Schneider Electric

# Iconic® Collection

The standard Iconic collection from Clipsal by Schneider Electric is now joined by two completely new looks with the sophisticated Styl and fresh Essence ranges of skins.

Iconic Styl skin

Iconic Essence skin

Iconic is a modern electrical accessories range based on a slim, sleek, clean design that is easy to customise and blends in with your decor.

### Loaded with clever features

**Game changing modular** mechanisms and grids with changeable skins and rockers for unrivalled customisation now and in the future.

**With ControlLink**, lights can be dimmed from multiple locations, plus you can link switches, dimmers, and time clocks together.

**Locking bar** allows simple mechanism reorientation and sturdy locking for a fast, easy and secure install, reducing the risk of mechanism pushbacks.

**Iconic's translucent edges** allow the skins to pick-up background colours for a design that blends in with any wall colour.

**Iconic's solid edge Vivid White skins** are available in selected switches and sockets for a sleek, clean look.

### Customisable and future-ready

**Interchangeable standard, Styl and Essence skins** provide great options to customise to suit specific decor and lifestyle.

**Innovative protective flaps** help prevent screw access after installation, allowing skins to be changed safely at any time.

**Iconic switches** are quick and easy to personalise with pictogram rockers that even your customers can change.

**Bluetooth Low Energy** delivers simple configuration and control of dimmers, timers and time clocks via the Wiser Room app on your phone or tablet.

**Iconic is future-ready** allowing for style and function updates in the coming years.

# Upgrade to ‘Skinability’

Iconic® is based around a unique, “safe grid” design, with a choice of three different ranges of skins that simply clip on. Once the grids have been installed by an electrician, it’s safe for anyone to change the skins at any time. You simply clip off the existing skin and clip on the new design.

## Iconic

The standard Iconic range of skins offers unlimited flexibility with standard white skins, and subtle colour variants that blend perfectly with any interior décor. They are available with translucent edges that infuse with wall colours, and a solid edge vivid white option.

## Iconic Styl skins

Iconic Styl is an irresistibly beautiful design made from durable anodised aluminium for a quality look in every home. Iconic Styl adds elegance, colour and modern simplicity with three metallic finishes to offer flexibility to a broad range of décor styles.

## Iconic Essence skins

With smooth round wooden edges, Iconic Essence has an unmistakably luxurious look and feel. Setting a new benchmark for quality and style in residential products, the natural finish of Essence will enhance your living space.

## Future-proof ‘skinability’

Being able to safely change skins makes it easy for your customers to upgrade to a fresh new look in the future as new skin colours and designs become available.

# Clever Functionality

Night Walk sensor light

Modular design

3-socket USB charger with shelf

## Iconic® features changeable skins, innovative features and enhanced connectivity.

In this all-new platform, we've thought of everything including new sockets, switches, dimmers and timers, USB chargers, new safety features, Bluetooth Low Energy connectivity and more. We've also designed Iconic with features that greatly simplify installation, and developed new products for safer, smarter homes.

### 40 mechanisms

Iconic switches and electronic accessories feature the 40 mechanisms designed for optimum flexibility in up to 6-gang grids. The grids make changing from vertical to horizontal orientation simple, and locking bars reduce the risk of mechanism pushbacks.

### Great innovations

Iconic includes a 3-gang USB charger with shelf. A Night Walk skin, which replaces the standard double socket skin, features an integrated motion sensor that switches on when it detects movement. LEDs illuminate the way when someone gets up at night, without disturbing others.

### Clever efficiency

Iconic electronic accessories deliver clever efficiency to the home. Bluetooth Low Energy connectivity and our own ControlLink technology offer simple configuration and multi-way control. The Wiser Room app lets you configure it all exactly to your customer's taste.

### Enhanced connectivity

Iconic includes a comprehensive range of options for all modern network connectivity requirements. With mechanisms for RJ45 networking, HDMI sockets and audio cable entry plates, you have everything you need for complete home networking.

# Sockets With a Difference

Iconic® features innovations like pre-mounted screws, protective flaps and in-line terminals.

# Clever Switch Innovation

Iconic® grids feature flaps, drill guides and 40 series mechanisms for easy installs and customisation.

# Electronic Accessories

Smart device app configuration and our own Controllink connectivity

USB mechanism with built-in current management mechanism and rotating head

PIR motion sensor mechanism

Electronic push-button switches integrate with standard plates

## Iconic® electronic accessories are designed for clever functionality.

Electronic accessories fit Iconic switch grids. Secured in place with the mechanism locking bar, they can be easily changed to suit vertical or horizontal orientation. The range includes standard electronic accessories such as rotary dimmers and USB chargers, as well as Bluetooth connected smart accessories such as dimmers, time clocks and switches.

### Rotary and push-button dimmers

Iconic electronic products include both push-button and rotary dimmers. Push-button dimmers offer multi-way dimming over standard wiring using Controllink. The tactile push-button turns the load on/off or dims up or down. The Wiser Iconic Bluetooth dimmer offers superior LED dimming with app control and configuration via the Wiser Room app over Bluetooth connectivity. Rotary dimmers adjust light from 1-100% with configurable minimum brightness settings. They come with built-in, re-settable, short circuit and over-temperature protection, and are optimised for compatibility assurance with Clipsal TPD series LEDs.

### Timers

Iconic timers are available in three models. The 350-watt timer can be configured to popular durations. The 3-wire 6A- and 10A models can be programmed by the Wiser Room app for 1 second to 24-hour adjustable time delay and run-on capability. They're great energy savers for pantries, laundries and bathrooms.

### USB chargers

Iconic USB chargers have a patented rotatable head for easy reorientation. They also include a patented current management technology, which reduces the output current to prevent overheating while minimising charge times.

### Electronic switches

Iconic electronic switches feature the same tactile 'click' feedback as the push-button dimmers when being operated. One click turns the switch on, and one click turns it off. The 3-wire 6A model offers simple in-room smart device app control via the Wiser Room app over Bluetooth connectivity.

### Time clocks

Iconic time clocks are programmed via the Wiser Room app for 24-hour, 7-day scheduling. They're ideal for scheduling operating times for appliances like towel rails, garden lights, or hot water booster elements, and can be set to automatically track with seasonal sunrise and sunset changes. Iconic time clocks also function as push-button timers providing extra functionality and ability to manually override schedules at any time.

### PIR motion sensor

The Iconic PIR motion sensor mechanism is simple to install and configure with front light level and timer adjustment. It is ideal for hands free lighting control in entry ways, WIR, pantries, hallways or stairs.

## Electronic Accessories (cont'd)

Configure from the Wiser Room app

## With ControlLink and Bluetooth Low Energy for simple connectivity.

Multi-way dimming and switching control has become easy with Iconic®.

### ControlLink connectivity

ControlLink allows for multi-way control of groups of lights, and for dimmers and time clocks to work together for enhanced functionality.

### Wiser Room app

Iconic 3-wire electronic products can be configured and controlled via the Wiser Room app on most tablets or phones to perform programmed tasks like:

- Switch and dim lights with configurable schedules
- Exhaust fan run-on after bathroom lights have been switched off
- Operate heated towel rails and/or lights on 24hr/7day schedules
- Automatic seasonal sunrise and sunset tracking
- It's also easy to reset everything to your original set point

### Bluetooth Low Energy (BLE)

Iconic 3-wire mechanisms connect to the Wiser Room app via Bluetooth Low Energy. BLE minimises energy consumption, connecting only when required and does not require any gateway devices.

### Connectivity without complexity

ControlLink and BLE together offer unprecedented flexibility with standard wiring. BLE is available on most phones and tablets for connectivity.

# Network Connectivity

Simplified network connector combinations

Cable Entry Plate

Aesthetically appealing cable management

Iconic® includes a wide range of network connectivity products for a professional home network.

Iconic has a broad offer for home data, TV and audio connections, allowing you to easily meet customer requirements for networking, audio and video installations.

## Audio, video and networking

Iconic includes a wide range of audio, visual and networking mechanisms to suit any home application. TV's can be connected to gaming consoles, IPTV and Pay TV boxes through F-Type, PAL and HDMI mechanisms. Sound systems can be connected via RCA mechanisms and RJ45. RJ45 mechanisms can be used for connecting all the smart devices to the home network.

## Flexibility of 40 mechanism grids

No two home networks are the same, which is where the range of audio, video and networking mechanisms make every setup simple and easy. You can use combinations of mechanisms in up to 6-gang grids, ensuring that a broad range of end user requirements are met with the Iconic range.

## Actassi data networking

Our Actassi data range is a complete networking solution including Cat5e, Cat6 and high performing Cat 6A mechanisms. Cat5e is ideal as a start for most home networking solutions, while Cat6 provides peace of mind with more reliable speed and bandwidth. Cat6A is our high-end solution for large and demanding applications.

## Cable Entry Plate

The Iconic Cable Entry Plate is a cost-effective way to allow cables to pass through cleanly and easily and are ideal for placing behind TVs to ensure the cables are kept secure and hidden.

# How to Order

With set prefixes, part numbers, skin codes and colour initials, ordering the Iconic® range is simple. For example:

Iconic		3025	C	**
Iconic Styl	S	3025	C	**
Iconic Essence	E	3025	C	**
Prefix = Design		C = Skin		** = Finish

## New colour codes and finishes

There are five new finishes for Iconic. Styl is available in silver, crowne and silver shadow anodised aluminium. Essence is available in arctic white and ash grey matt finish skins, with real birch timber edges.

Iconic Styl	SV	Silver	Silver anodised aluminium, plus cool grey gloss plastics.
	CE	Crowne	Gold anodised aluminium, plus warm grey gloss plastics.
	SH	Silver Shadow	Anthracite anodised aluminium, plus anthracite gloss plastics.
Iconic Essence	AW	Arctic White	Real birch timber trim, plus vivid white matt plastics.
	AG	Ash Grey	Real birch timber (stained dark), plus new ash grey coloured matt plastics.

## Corresponding grids and skins

Each skin design carries the part number that corresponds to the grid with which it is compatible. For example:

### Iconic Essence double socket in arctic white

3025	G	«	E	3025	C	AW
Part number	G = Grid		E = Iconic Essence	Same as grid part number	C = Skin	** = Finish

### Standard Iconic 3 gang switch in anthracite

3043VAG	«	3043	C	AN
Part number		Same as grid part number	C = Skin	** = Finish

### Iconic Styl 3 gang switch in silver

3043VAG	«	S	3043	C	SV
Part number		S = Iconic Styl	Same as grid part number	C = Skin	** = Finish

### Iconic Essence 3 gang switch in arctic white

3043VAG	«	E	3043	C	AW
Part number		E = Iconic® Essence	Same as grid part number	C = Skin	** = Finish

## Select a DGPO grid plate and choose a decorative skin

Grid Plate	Skin Choices
